

STÄRKE

a window to a better world

COMPANY PROFILE

"We're a building performance company,
not a window and door company."

- Ken Pridham, Managing Director

ABOUT STÄRKE

With over 15 years experience in the industry, the team at Stärke understand that we exist for one reason – to help you design and build better buildings.

That's why we've designed our entire business around systems, processes and product designs that ensure we deliver exactly what you need, when you need it, while at the same time providing a point of difference to help your buildings stand out from the rest.

When you choose Stärke, you're partnering with a family owned business that is proud to stand behind our commitment to deliver. As New Zealand's only independent end-to-end window and door manufacturer, we're continuously looking for ways to deliver industry leading products and services that help make doing business together easier.

Windows and doors are such a critical part of the building envelope. We care about the future and are passionate about embracing better thermal performance. Our software and design consultation services can help you achieve optimum thermal performance on your next project.

AT A GLANCE

End-to-end
supply chain

Over 6000m²
manufacturing
facilities across
multiple locations

100% Kiwi owned
and operated

Capacity to produce
2000 units/month

years in
operation

STÄRKE SERVICES

Stärke is one of the only end-to-end joinery suppliers in New Zealand, which makes us uniquely placed to streamline your workflow, and provide high volume, high performance joinery on time and to specification.

We work with architects, engineers and specifiers from initial consultation, right through to pricing building partners, confirming specifications, and then fabrication, delivery and installation.

ARCHITECTURAL SUPPORT & DETAILING

- ▶ Design consultation
- ▶ Shop Drawings & PS1
- ▶ Samples boxes nationwide

TESTING & COMPLIANCE

- ▶ H1 compliance documentation via schedule, calculation or modelling method
- ▶ Support with council documentation & RFI
- ▶ Onsite or offsite joinery testing
- ▶ Blower door testing (coming soon)

EDUCATION & TRAINING

- ▶ Preliminary, budget and final pricing
- ▶ Architects Education, CPD accredited presentations
- ▶ Installation & after sales

FABRICATION & DISTRIBUTION

- ▶ Joinery fabrication

STÄRKE SUITES

The Stärke product range has been developed specifically for the New Zealand and Australian markets and tested to exceed New Zealand and Australian standards.

Ambiance™ Residential uPVC

We've set ourselves a higher standard for performance on almost every measure possible. The difference may be unseen but it's all around us – creating positive changes in the atmosphere and how it makes your place feel. We make the things you cannot see better – silence, energy, warmth, air quality.

Commercial Aluminium

The Stärke commercial suite features 106, 150 and 159mm sizes, and includes flush and structural glaze, with high seismic capacity. Featuring unique fully sealed end dams to ensure high performance water management, strength is built into each element for long lasting durability and safety. With the Stärke flat face frame design, sight lines are consistent and clean and integrate beautifully with the Stärke 40 architectural suite for unparalleled flexibility. Stärke Commercial can be adapted and extended to meet the needs of specific projects as required.

Thermally Broken Commercial Aluminium

The STARKE Thermalframe Commercial is a high-performance, energy efficient thermally broken aluminium frame. Highly versatile, it is perfect for standard shopfront through to low-rise window wall applications, and can meet and far exceed the new commercial H1 requirements, with R values up to R0.7.

CASE STUDIES

New Zealanders deserve warm, dry, safe and healthy homes.
Homes that provide a quiet sanctuary from a busy world
and a place to retreat and rejuvenate with family.

Looking after our planet is the only option

It's reassuring to know that our windows contribute to creating a brighter tomorrow for future generations.

Not only do we use recyclable materials wherever possible, the best bit is our high-performance windows outperform traditional windows by 38%* helping to reduce energy consumption. Stärke is ISO 14064-1:2018 environmentally certified with a goal of being carbon neutral by 2025.

We're committed to a brighter future, that's why we're proud to be a business with Carbon Footprint certification. Measuring the carbon footprint of our business operations helps us to realise strategic opportunities to continuously improve. Follow our journey on our website www.starke.co.nz

Stärke products are tested to exceed NZS4211 Window Performance standards. Windows & doors have a 5 year manufacturers. For more details, please visit our website. **Discover the difference for yourself at our energy efficient windows and doors experience centre.**
